## Hyatt Regency Aruba Resort & Casino

Hotel Rating: 4 Star 

### Overview

#### Palm Beach locale

Located on Aruba's west side on Palm Beach, this resort includes a dining center and a large pool complex.

#### View-filled rooms

360 rooms offer views of the ocean, pool, or garden. Club rooms offer light dining in an exclusive lounge.

#### Alluring activities

Attractions include gardens and ponds, watersports, a full-service spa and fitness center, children's activity programs, and the casino.

**What to Expect:** This contemporary Hyatt Regency resort faces Palm Beach, one of the island's best beaches for water sports and sunbathing. Thatched shades shelter lounge chairs arrayed on the soft sands. Guests, primarily families and celebrating couples, are welcomed into a long, breezy lobby with terra-cotta tile floor, wood-paddle ceiling fans, wrought-iron chandeliers, and cushioned seating.

**Amenity Highlights:** Set amid flowering tropical gardens and a freshwater lagoon stocked with fish, a multi-level pool complex features a two-story serpentine water slide, two spa tubs, and cushioned lounge chairs. The lower-level activities pool includes a swim-up bar. A "quiet" pool is on the upper level. Designed to resemble stone "ruins," the beach-view dining complex is surrounded by ponds and waterfalls.

**Insider Tip:** Macaws, Amazon parrots, and a black-and-yellow toucan with a giant Technicolor beak are scattered throughout the central gardens. Most are housed in cages, but an uncaged, raucous choir of macaws enlivens the pool scene.
